

## Care and Maintenance – EnviroWoven® powered by Supreen®

Proper care and maintenance are essential to preserving the appearance and performance of LDI's EnviroWoven® upholstery textiles powered by Supreen®.

---

### Cleaning & Maintenance Procedures

- Routine Cleaning
    - Vacuum regularly to remove dust and debris.
    - Prompt cleaning of spills is strongly recommended.
    - Spot clean using mild soap and water, followed by a rinse with fresh water.
  - Stain Removal
    - Wipe the affected area with a soft cloth or sponge using a 1:10 solution of dish soap and water.
    - For stubborn stains, follow up with a mild solution of Oxi-Clean™.
    - For persistent stains, apply a 10% household bleach and water solution, allow appropriate contact time, then rinse thoroughly with fresh water.
    - Rinse thoroughly with fresh water.
  - Disinfection
    - Ensure surfaces are clean and dry before disinfection.
    - Lightly spray with a 10% dilution of Household Bleach and water, or a 70% dilution of Isopropyl Alcohol and water.
    - After the appropriate contact time, blot surface dry and gently wipe or rinse with fresh water and blot dry.
    - Do not oversaturate or allow liquid to pool.
  - Recommended Practices
    - Use multiple light applications rather than one heavy application.
    - Never apply full-strength bleach or harsh solvents directly to the fabric.
    - Avoid abrasive cleaners, steam cleaning, or excessive heat.
- 

### Cleaner and Disinfectant Compatibility

LDI EnviroWoven® materials powered by Supreen® have passed testing for compatibility with all major chemical families commonly used in healthcare and commercial environments. Specific compatibility questions can be directed at your LDI Sales Representative, but the user assumes all liability and information is provided as a relative test comparison in a controlled environment.

---

### Cautions and Limitations

- Residue Risk: Failure to remove cleaning or disinfectant residues may result in accelerated wear, discoloration, or surface damage. Always rinse thoroughly.
  - Strong chemicals, improper dilution, or use of non-recommended cleaners may damage the textile and void the warranty.
  - Environmental Factors: humidity, temperature, and frequency of cleaning may influence results.
  - Failure to promptly clean spills may result in permanent staining.
  - Results may vary depending on stain type, fabric color, and exposure time.
- 

### Disclaimer of Liability

The information provided reflects recommendations under controlled laboratory testing conditions and is offered in good faith for guidance only. It is not a guarantee of specific results under all conditions.

Reference *LDI EnviroWoven® Upholstery Warranty* for LDI's specific guarantee and obligations. LDI disclaims all warranties, express or implied, including but not limited to the implied warranties of merchantability and fitness for a particular purpose.

---

### **Final User Responsibility**

It is the responsibility of the user to:

- Confirm the appropriateness of any cleaning/disinfecting method.
- Adhere to all label instructions from cleaning product manufacturers.
- Evaluate cleaning effectiveness in their unique application environment.
