Custom Print Guidelines

For select sales opportunities, LDI Textiles can create a custom concept sample incorporating your prospective client's logo or branded artwork. It's one more way our print on demand capabilities can help you bring an idea to life and give your customer something created specifically for their project.

Describe The Opportunity

Please briefly identify the prospective customer and the sales opportunity this branded concept sample is intended to support:

Artwork Authorization

I confirm that I am authorized to grant LDI Textiles permission to use the logo(s) and/or branded artwork provided with this request. I grant LDI Textiles permission to reproduce this artwork solely for the purpose of creating concept samples for the sales opportunity identified above.

Name: Company: Title:

Signature: Date:

Accepted File Formats

Screenshots, images copied from websites, and low resolutions files cannot be used to recreate branded artwork. For the best results, please provide orginal, high quality artwork such as:

- Adobe Illustrator Files (.ai)
- Adobe Photoshop Files (.psd)
- High Resolution PDF

We'll Take It From There

Once we have the appropriate artwork and authorization, our team can evaluate the concept and determine the best way to bring it to life.

Branded concept samples are created in limited quantities for a specific customer presentation or opportunity. They are concept samples - not finished commercial products, and cannot be resold, broadly distributed, or used for other customers.

If the concept turns into a commercial project, great. We'll work with you on the next steps, including the authorization needed for production.

Please send this completed form and artwork files to your Account Executive or customercare@Lditextiles.com
